# What is SaaS

## What is SaaS

Software as a service (SaaS) is a software licensing and delivery model in which software is licensed on a subscription basis and is centrally hosted. SaaS is also known as "on-demand software" and Web-based/Web-hosted software

## Says McKinsey <sup>(1)</sup>

The global SaaS market is expected to nearly double from \$220B in 2020 to \$540B by 2025 and could reach nearly \$1-trillion by 2030.

Indian SaaS companies could generate annual revenues of \$50-\$70 billion by 2030 and win 4-6% of the global market – a value creation opportunity of \$500 billion to \$1 trillion

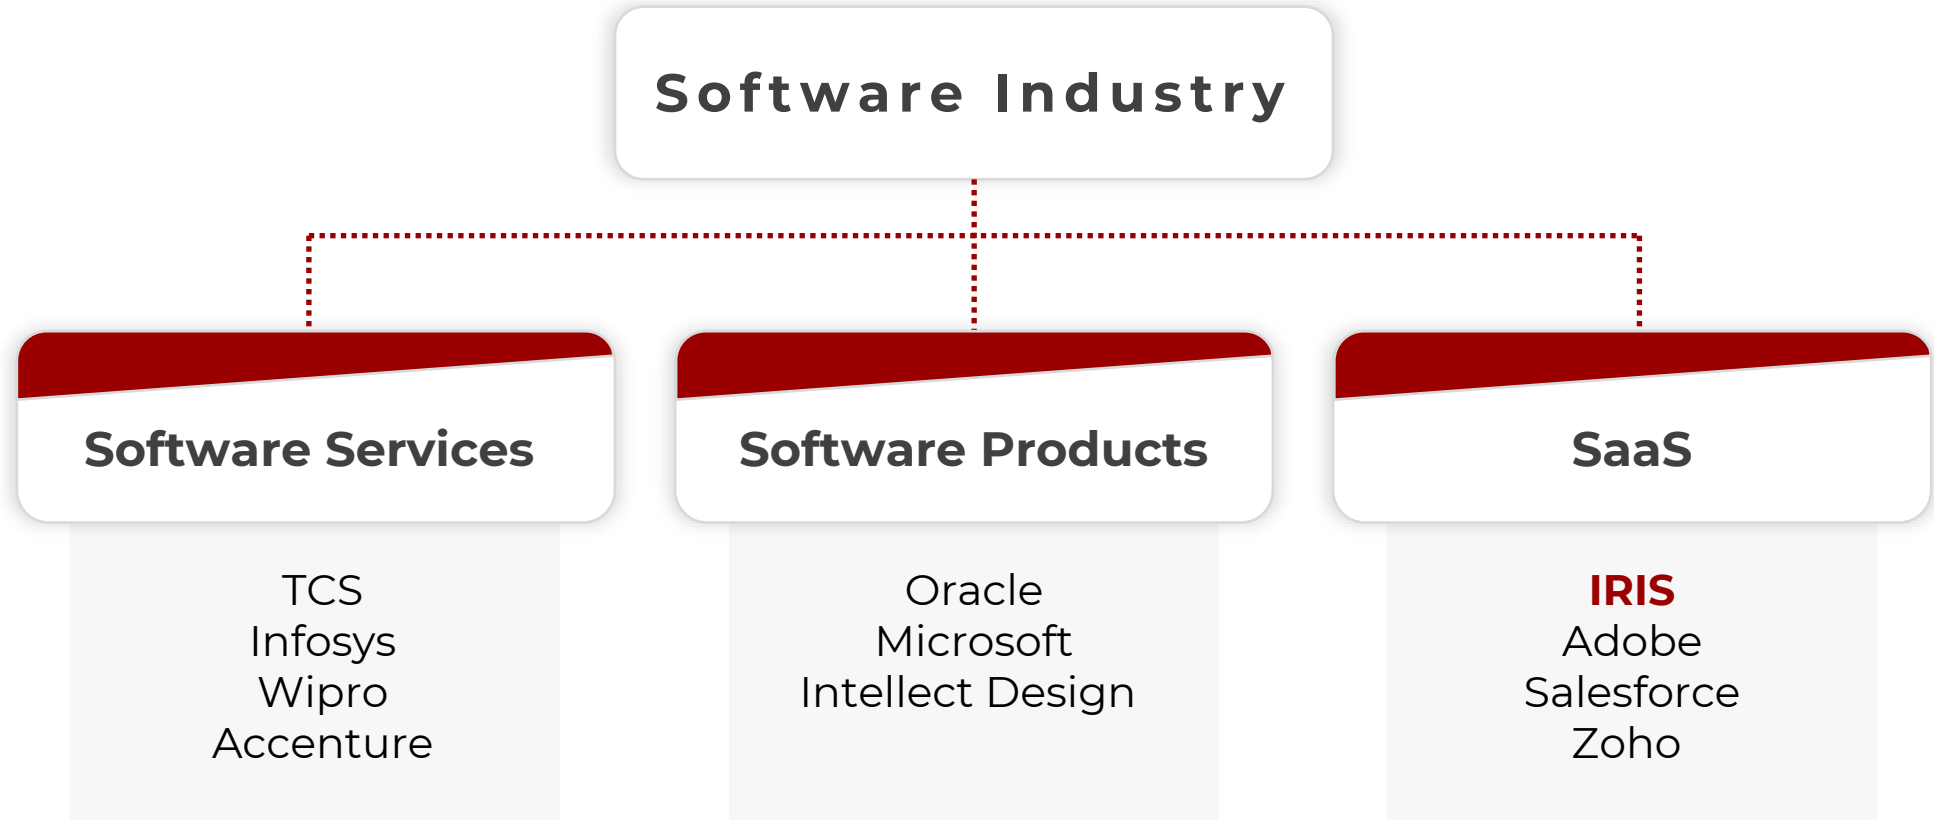

## Says Zinnov <sup>(2)</sup>

The SaaS industry is well positioned to overtake the well-established IT Services industry by 2030

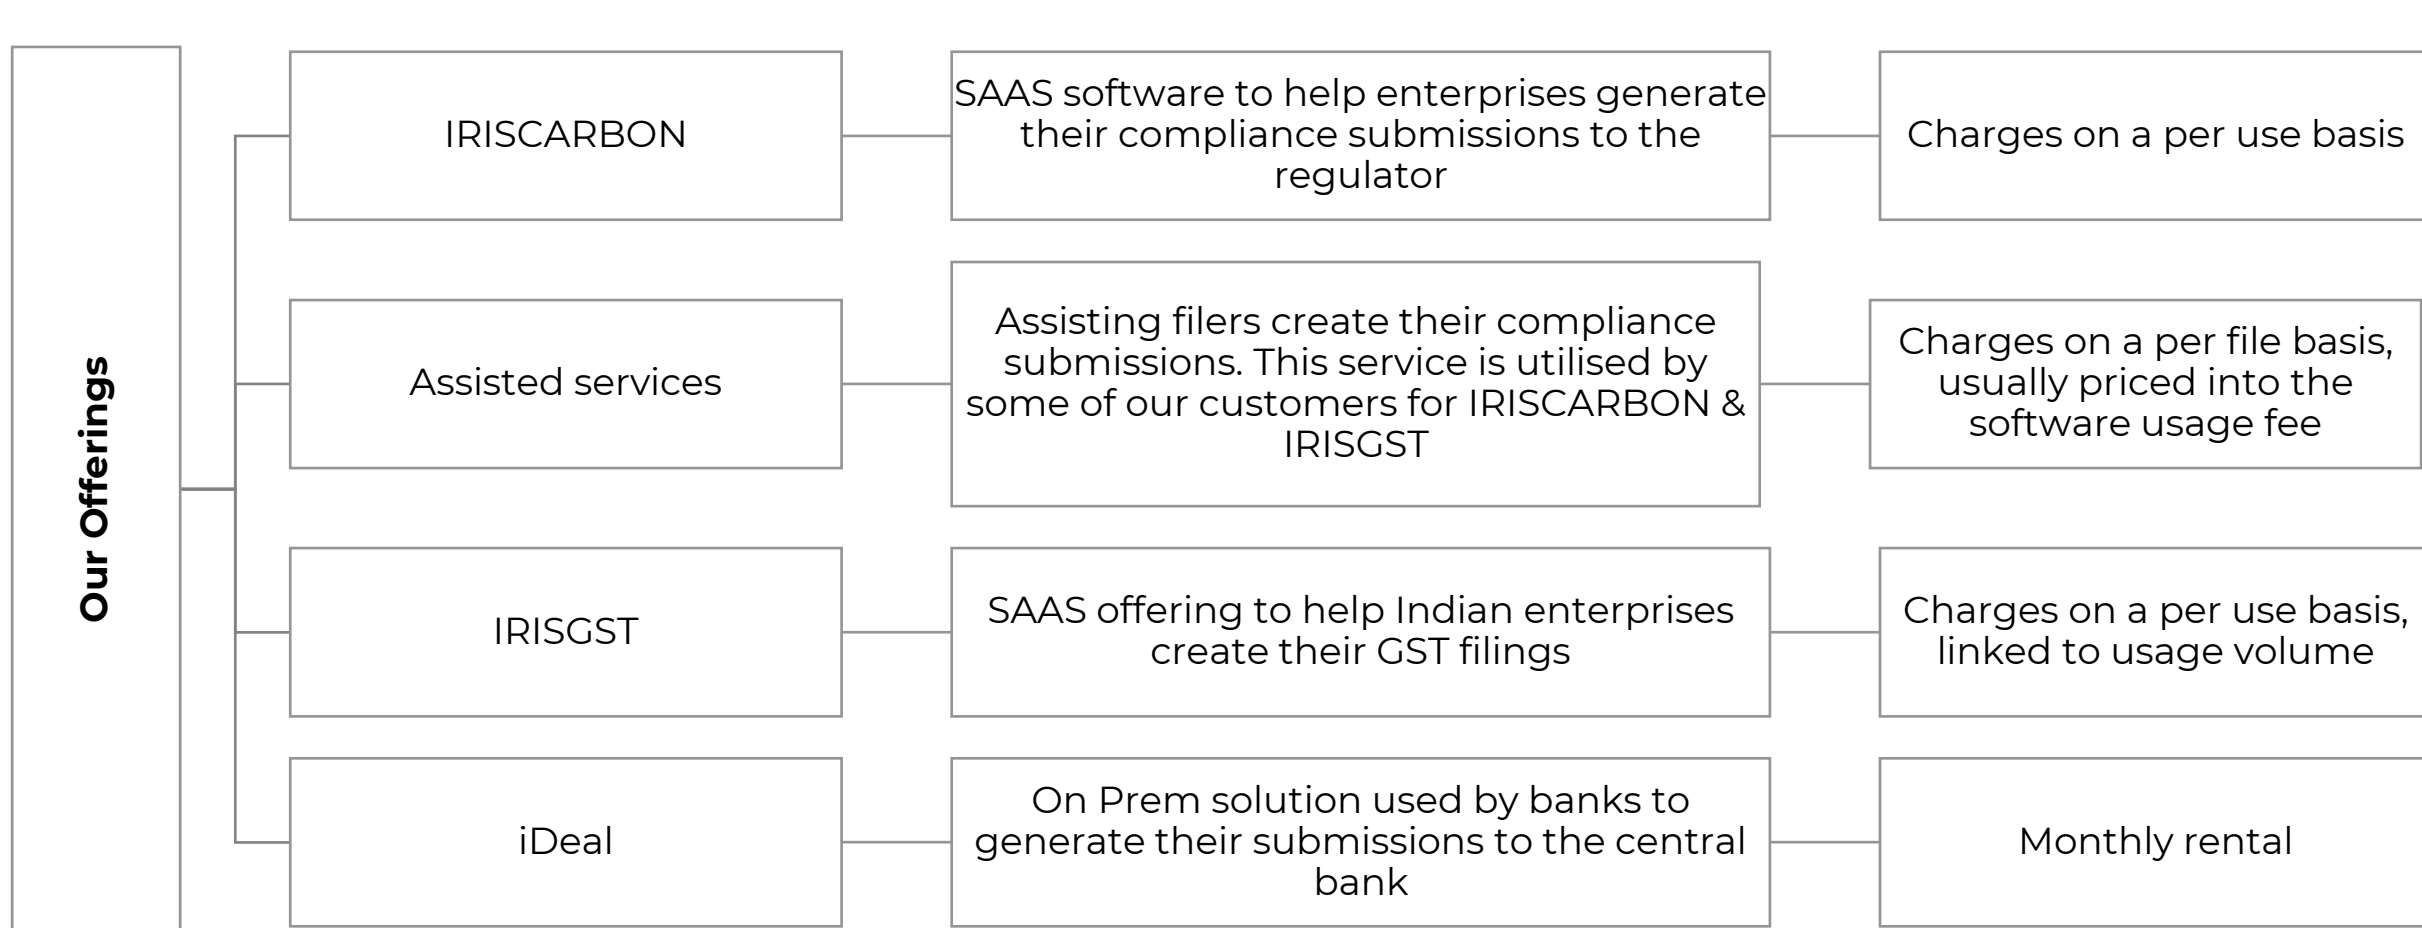

(1) Shaping India's SaaS landscape, August 2021

(2) Indian SaaS Revolution, Rising Trillion dollar opportunity, 2021
