ANNUAL REPORT
2018-19

Forward-looking statement

In this Annual Report we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make, contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions should be known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

IN 2010, AUSTRALIA LAUNCHED A PROGRAM TO STANDARDISE BUSINESS-TO-GOVERNMENT REPORTING (STANDARD BUSINESS REPORTING - SBR2).

That program is estimated to have saved Australian businesses and government \$1.1 billion a year.

The trend is accelerating.

European Securities and Market Authority made it mandatory for companies to file financial reports using XBRL (starting 2020).

Companies and Intellectual Property Commission (CIPC) of South Africa mandated the submission of financial information – including annual returns – from qualifying entities in the Inline XBRL format.

U.S. GAAP filers have been provided a three-year period to comply completely with Inline XBRL requirements.

What started as a drop in the global pond has now transformed into a ripple.

The world, XBRL and IRIS

IRIS IS A PIONEER IN THE REGULATORY- TECHNOLOGY DOMAIN.

The company provides these reporting solutions to global regulators and enterprises.

It works with a number of global regulatory bodies to build reporting taxonomies, the foundation for XBRL based reporting.

IRIS has innovated further, incorporating artificial

intelligence and machine learning into its solutions.

Structured data combined with AI empowers diverse data to 'talk' among themselves – connecting the dots – to derive meaningful information and enhance informed decision-making.

How we play a critical role across world over

Collect Segment
(Regulators) ▶

Complexities involved

Every regulator has specific requirements over and above certain general data collection and reporting standards such as IFRS and Basel. This is met through bringing in IRIS' significant experience and skills in taxonomy building. Moreover, the workflow within a regulatory organisation changes markedly from regulator to regulator. In addition, there is a need to integrate the data collected into an existing legacy system, which has its own complexities.

How IRIS helps in providing cutting-edge solutions?

IRIS brings in a unique proposition, combining under one roof, both taxonomy consulting and a technology platform. IRIS brings in multidisciplinary skills in XBRL taxonomy creation, technology platform customisation, state-of-the-art XBRL validation and data integration in delivering a cutting-edge solution to the customer.

Why is it important to report in XBRL?

XBRL is an information standard that is inter-operable across different computer systems and accommodates robust validation rules, which essentially mean that accurate data can be transported and consumed across enterprises and regulators. Entities that have to meet the external reporting requirements in XBRL also stand to gain in multiple ways. Firstly, data assembly and report creation lends itself to automation and reusability to meet multiple compliance requirements. Secondly, further standardisation of the underlying data within the data ecosystem in an organisation (essentially extending the XBRL standardisation into internal reporting) can help in areas such as group company consolidation and financial closure. Finally, adoption of XBRL within an organisation can lead to significant benefits in building an internal MIS.

How IRIS helps in providing cutting-edge solution?

IRIS CARBON® is a cloud-based collaborative report authoring platform that also incorporated state-of-the-art XBRL and Inline XBRL capabilities. An IRIS CARBON® user can enjoy a material improvement in report creation efficiencies, the ability to make last minute changes and productivity enhancing features such as data linking (through which a change in underlying data can instantaneously reflect across the document).

"Over the last five years, we have established a strong presence across the world"

A message from **S. Swaminathan**, CEO

Dear Shareholders,

IT HAS TAKEN US FIVE YEARS TO GET HERE.

In 2014, we were a KPO in the Regtech space. On revenues of ₹ 67 crore, we reported a PAT of ₹ 8 crore making it our best year ever. More than 80% of our revenues came from one client in the USA whose customers' documents we would convert into XBRL¹ for submission to the US SEC. But we did not see a bright future in continuing to do this for long. One, because of over dependence on just one customer to whom we were bound by exclusivity contract preventing us from serving other clients. And two, because we felt that with automation, the KPO opportunity may not have a bright future. So, after much thought, we exited the KPO business. We saw a great future in products.

The next three years were horribly painful, just as we had anticipated. Revenues crashed, pushing us into the red. We cut back drastically and put in place severe cost control measures. But we had to keep investing to get our

products ready. Liquidity was tight and the months were many when we were unable to cover our expenses. We could not even pay salaries on time or in full. When salary dues started mounting, I stopped taking even the modest salary due to me so that the pressure on the cash flow would ease, even if only marginally.

In FY 2017 we hit rock bottom. Revenues crashed to ₹ 27 crore, causing losses to jump to ₹ 9 crore. But we could see that things were turning around, we could also see light at the end of the tunnel. If the best time to go public is when things are set to improve, the timing of our IPO could not have been better.

Five years after we embarked on what has been a very tough journey, we are where we want to be. From the time of our IPO in 2017, our revenues have been increasing, our losses have been narrowing. We have turned EBITDA

positive. Our order book at a very healthy ₹ 58.5 crore puts us within striking distance of our revenues of FY 2014. Moreover, we have turned the composition of revenues on its head. If in FY 14, 92% of our revenues came from our services business, today over 90% comes from products. There is still much to be done. For starters, we have to turn profitable. We have to generate enough cash to clear employee dues of the past. And I too need to start getting paid.

Over the last five years, we have established a presence across the world, with one or more of our products finding customers in some 25 countries across 5 continents. We now serve more than 1000 paying clients worldwide, with direct visibility to most of our customers, much unlike the pre 2014 days when one client gave us to most of our business. In each instance where our products are being used by the regulator, our work has been transformational. Our work is helping build the foundation for a viable fintech ecosystem. It is a matter of great satisfaction that we are more than just an essential cog in the wheel that moves these countries forward.

THE BUSINESS

IRIS has 3 business divisions.

Collect is our Suptech business², where we work with regulators, helping them collect pre validated data in XBRL or other formats from those that they regulate. iFile is the flagship software product of the Collect Division through which we also offer Taxonomy consulting apart from software tools for taxonomy development. We have served 25 regulatory clients across 5 continents in 17 countries around the world, from Singapore to Argentina and from India to South Africa and from UAE to USA. We have been adding 1 or 2 clients every year but the recent pick up in XBRL adoption around the world bodes well for our fortunes given our proven credentials. I should also tell you that some 1.5 million filings go through

our iFile platform every year. That is huge.

Create is our Regtech³ business serving Enterprises. IRIS CARBON®, our main offering, has won customers from the USA to the UK and from South Africa to Italy. In most cases, the filing happens in XBRL though the product can support other data formats too. iDeal, another software product of this division is used for bank reporting in India and Mauritius and has even found clients for tax filing in Turkey. In our GST division, we have a fairly impressive list of clients to show with all of them using the IRISGST cloud platform to generate filings in a format called JSON to submit to the GSTN. We expect the Regtech business to be the big driver of our growth and hence the value driver in the immediate future given the emerging opportunities in Europe, Malaysia and South Africa.

Consume is our data and analytics business. It is still in the investment phase. Through this division we offer software tools for data analysis, apart from Data as a Service (DAAS). It complements the Collect and Create divisions of IRIS nicely, strengthening our competitive edge in them while, at the same time, drawing sustenance from them.

In India

XBRL has already made a huge impact in India at the RBI with all banks reporting to the banking regulator through our iFile platform and in the case of many banks, using our iDeal tool. Also, some 30,000 companies file with their annual returns with the Registrar of companies in XBRL. In contrast, the filings to GSTN happen in another format called JSON.

While most of our revenues comes from overseas, we have successfully positioned ourselves as a premium software provider for GST filings and RoC submissions in India aside from deploying iFile at RBI. Much of the early work on taxonomy for XBRL filings to RoC and RBI has our stamp on it.

XBRL HAS ALREADY MADE A HUGE IMPACT IN INDIA AT THE RBI WITH ALL BANKS REPORTING TO THE BANKING REGULATOR THROUGH OUR IFILE PLATFORM AND IN THE CASE OF MANY BANKS, USING OUR IDEAL TOOL. ALSO, SOME 30,000 COMPANIES FILE WITH THEIR ANNUAL RETURNS WITH THE REGISTRAR OF COMPANIES IN XBRL.

THERE IS MUCH MORE COMPETITION IN THE REGTECH SPACE, THERE ARE EVEN A FEW LISTED COMPANIES, BOTH IN INDIA AND OVERSEAS. WHAT SETS US APART IS THE FACT THAT ALMOST ALL OF OUR PRODUCTS ARE BUILT FOR THE WORLD AND IN MANY CASES, NOT FOR THE INDIAN MARKET.

Another area where we have made a huge impact in India is through IRIS Peridot, a free to download mobile app that helps users verify the GST compliance status of any business. I encourage you to download it by scanning the QR code that is provided alongside. The next time you buy anything or visit a restaurant to eat, scan the GST number of the establishment to verify if they are generally compliant. You can also use it to see whether a company you have invested in is generally compliant as it is safe to assume that there are issues with those that are not. I am told that the app is popular even with the government's CBIC which has oversight responsibilities in respect of GST.

THE IMPORTANCE OF IRIS

We may be a small company in terms of revenues but our impact on the system has been far reaching. For example, in India, our XBRL software deployed at RBI has made it imperative for banks to report their NPAs truthfully or else invite the regulator's ire. In Macedonia, our solution catapulted the country to the top bracket in the ease of business rankings. In a market in the Middle East, we managed to stave off a possibly catastrophic market meltdown by helping the regulator spot it sufficiently early leveraging the data submitted through our iFile platform. Our products are making a difference, in each of the countries we operate, we are helping build the foundation of data to build a viable fintech ecosystem. We are fintech, And within fintech, Collect is Suptech or Govtech, Create is Regtech and Consume is Datatech.

PEER GROUP

There is no other company in India in a business similar to ours what to speak of a listed one. Even globally, in the Suptech area, there are just a handful of product companies, none are listed and none from India, IRIS aside. Many regulators like the Registrar of Companies in India prefer to have

a custom solution built to meet their requirements.

There is much more competition in the Regtech space, there are even a few listed companies, both in India and overseas. What sets us apart is the fact that almost all of our products are built for the world and in many cases, not for the Indian market. Indeed we make in India for the world.

While the competitive landscape of the Consume segment may seem crowded, there are not many players even globally who are working with XBRL data like we are and who can connect the dots like we can.

"Those who rule data will rule the entire world," says Masayoshi Son of Softbank. From the creation of data by the enterprise, to its collection by the regulator and to its consumption by whoever may have use for it, we straddle the length of the information supply chain. In the rapidly digitising world, data needs to be structured ab initio for it to be used sensibly and that is the raison d'être of our business. Or to put it simply, we help connect the dots, which is the theme of our annual report for FY 2019.

ON BEING LISTED ON THE SME PLATFORM

Come October, we would have completed two years on the SME board and will therefore be eligible to migrate to the main board of the BSE. Whether we do it or not is a decision that will be taken by our board of directors at the appropriate time and will be subject to shareholder approval.

The last year has been bad for stocks listed on the SME board. Stocks on the SME board have been battered and the entire segment has got a bad name because of mischief by a few. One point of view shared with us is that given that we score very high on corporate governance, simply migrating to the main board will help our story resonate that much louder.

It has also been argued that with the reduction in the size of the market lot, the stock could be more liquid than it is now. We have also been advised that the problem that we face today of inadequate appreciation within the investor community in India for the significance of our work and the enormity of our impact on each of the countries where we operate will simply go away.

On the other hand, the nature of our business is such that it is difficult to come up with a meaningful quarterly forecasting model as analysts would want to do if we were to move to the main Board. In the Collect segment, it is the regulator's time table that drives business to us. And when it comes to revenue recognition on existing business, even though we link it to deliverables, we still need client confirmation. Which, for most clients, is a challenge given that an electronic disclosure platform is a new animal. This has a bearing on when we may book revenues and there are situations where revenue may end up having to be recognised a few months later for want of client confirmation. This makes forecasting tricky. Also, we do not view the IRIS stock as one that can give short term trading returns. We feel that long term investors will be rewarded if the company's growth continues. All of this provides sustenance to the view that we may be better off being on the SME Board at least until we turn profitable and can show quarter on quarter growth.

In any event, it is our Board of Directors who will decide the way forward.

LOOKING AHEAD

I started by pointing out that it has taken

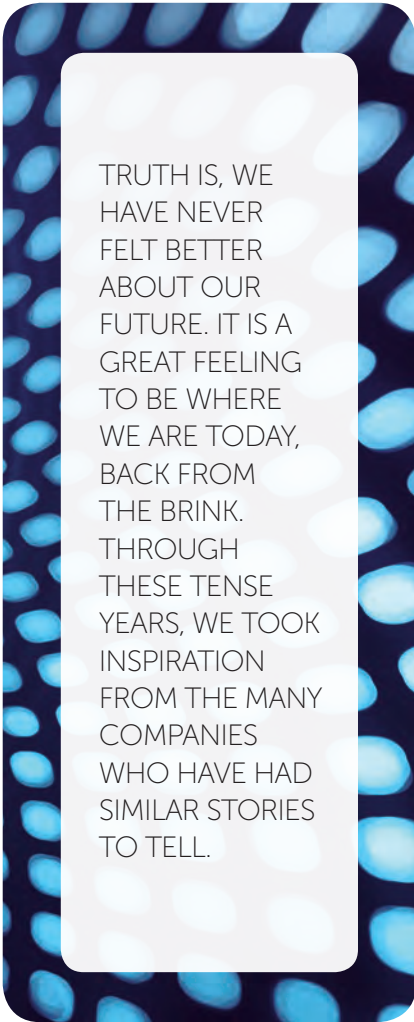

us five years to get here. Until now we were weighed down by the burden of our losses. Last year we turned cash flow positive. Our aspiration for this year is to turn profitable. Once we are out of the red into green territory, our efforts will be to get on a trajectory of rapid growth, subject to availability of sufficient resources. When we compare ourselves with our global competitors, we find that we have much going for us, not the least of which is the Indian cost advantage.

Our products are ready and proven in the world markets. The opportunity in each of the 3 segments we operate is big enough to support aggressive growth. But the fact remains that we are under-resourced at the present time to dominate the market by capturing a significant share.

Truth is, we have never felt better about our future. It is a great feeling to be where we are today, back from the brink. Through these tense years, we took inspiration from the many companies who have had similar stories to tell. Companies like Apple, Delta, IBM and GM, to name just a few.

I want to leave you with a comment that BSE MD & CEO, Ashish Chauhan never tires of making. Only SME stocks can give investor non linear returns, he says. We hope we can prove him right for your sake.

Thank you for giving me a patient read. If at any point in time, you feel like reaching out to us to understand our business better, please feel free to do so. Please email your comments and suggestions to cs@irisbusiness.com. I would love to hear from you.

TRUTH IS, WE HAVE NEVER FELT BETTER ABOUT OUR FUTURE. IT IS A GREAT FEELING TO BE WHERE WE ARE TODAY, BACK FROM THE BRINK. THROUGH THESE TENSE YEARS, WE TOOK INSPIRATION FROM THE MANY COMPANIES WHO HAVE HAD SIMILAR STORIES TO TELL.

¹XBRL: eXtensible Business Reporting Language has emerged over the last decade as the preferred enterprise information reporting standard of regulators from around the world.

"The convergence of a portfolio of best-in-class products and favourable market conditions will drive our growth."

A conversation with **K. Balachandran**, CFO

How would you evaluate the performance of the company during the year under review?

FY2019 was a transformational year for our company. To evaluate the performance, we must segregate the year into two – during the first half of the year, we reported a y-o-y growth of 47%

in revenues. We reduced our EBIDTA loss and moved a decisive step closer to breaking even. However, revenue growth decelerated during the second half of the year owing to a delay in order

inflows. The positive message is that despite this handicap, the company stayed cash flow-positive during the year.

What were the highlights during the year under review?

The Create segment of our business reported 56% growth albeit on a smaller base and moved closer to breaking-even.

We focused on consolidating our GST

compliance business during the year under review. We anticipate changes in the compliance environment, which should provide an impetus for companies to turn towards enhanced filing automation.

With Indian companies filing online and returns needing to be matched online to ensure GST compliance from 2019-20, we are optimistic that our solution should gain increased traction.

What were the key take-aways for the company in FY2018-19?

In FY2018-19, there was a deepening in our offerings coupled with increased market penetration. Nearly 50% of our revenues were derived from the Collect segment compared with 62% in the previous financial year due to a delay in

the receipt of iFile platform orders.

In the initial year, the South African market did not grow as much as we had anticipated. The South African market comprising the opportunity for more

than 60,000 filings but only ~5% of the potential market is believed to have filed in the prescribed format. Being a key player in the market, we expected to carve out a good market share and are on track to achieve this target.

What is the company's outlook?

Companies and regulators are increasingly aspiring for a connected ecosystem. Qatar, one of our key markets, is witnessing this standardisation and we expect other countries to follow suit, enhancing our relevance.

We aim to progressively moderate the contribution of revenues from the Collect segment to 40-45% over the next few years. We expect that this conscious moderation at a time of overall revenue growth will help our company generate consistent annuity-

based revenues that enhance our stability and revenue visibility.

The transition in our client mix from government regulators to private enterprises could moderate our receivables cycle and strengthen our cash flows.

How is the company placed within the sector?

The company's perseverance has resulted in green shoots of growth. There is a greater traction from prospective customers for our services and products. The result is that we are widening our focus from regulators

to enterprises. We entered two new markets in FY2018-19, increasing our global presence to 26 countries across five continents. We consolidated our presence in Qatar, an important market. Besides, with regulators becoming

increasingly reluctant to provide a free tool, there was a growing traction from private enterprises, deepening our relevance.

Why is IRIS in the right business at the right time?

The world has entered an era of information harmonisation led by digitalisation and automation. People are recognising the value of systems 'talking' to other systems, standardising and widening the market for digital reporting solutions.

Organisations recognise the need to report increasingly in standardised formats with critical end outcomes.

There is also a growing premium on

data and systemic integrity today than ever before. The result is that we expect to see a rapid increase in the pace of XBRL adoption across the foreseeable future, especially in small developing countries.

In a rapidly digitalising world, it is becoming increasingly necessary for reporting and compliance to graduate to the digital, marked by an extension from paper and pdf to the XBRL or Inline XBRL formats.

As an opportunity-focused company, IRIS is addressing this market through various strategies. For instance, the company is partnering organisations with complementary capabilities to deepen its market penetration, enhance visibility and offer value-added solutions.

How bright are the company's prospects?

The developments taking place in the global regulatory environment are encouraging. The convergence of a portfolio of best-in-class products and favourable market conditions will drive

our growth. The priority is to invest in marketing, customers outreach and for evangelising our products. At IRIS, we are investing sizeable resources in enhancing our visibility.

Besides, we believe that the need of the hour is a stronger balance sheet. During the year under review, we repaid ₹2.25 crore long-term loans and improved our working capital cycle.

Management Discussion and Analysis

Global economic overview

Following a robust growth of 3.8% in 2017 and in the first half of 2018, the global economy slowed in the second half of 2018, reflecting a confluence of factors affecting major economies like the failure of Brexit negotiations, tightened financial conditions, geopolitical tension and higher crude oil costs. Owing to this, the global economy growth in 2018 is estimated at 3.6% and is projected to slow down further to 3.3% in 2019.

The global economy is projected to

pick up in the second half of 2019 riding on the back of an ongoing build-up of policy stimulus in China, recent improvements in global financial market sentiment, the weakening challenges to growth in the euro area, and a gradual stabilisation of economic conditions in stressed emerging market economies, including Argentina and Turkey. Emerging markets and developing economies are expected to sustain the momentum of growth till 2020, primarily reflecting developments in economies currently experiencing macroeconomic

distress. On the contrary, economic activities in advanced economies are projected to continue slowly.

Crude prices remained volatile since August as a result of multiple factors including the American policy pertaining to Iranian exports and softening global demand. Oil prices dropped from a four-year peak of USD 81 per barrel in October 2018 to USD 61 per barrel in February 2019. Further, crude prices are projected to reach an average of USD 59.16 per barrel in 2019 and USD 59.02 in 2020.

Indian economic overview

India emerged as the sixth-largest and retained its position as the fastest-growing trillion-dollar economy. However, after growing 7.2% in 2017-18, the Indian economy was expected to grow at 6.8% in 2018-19 as per the third advanced estimates of the Central Statistics Office released in May 2019.

The principal developments during the year under review comprised

a sustained increase in per capita incomes, decline in national inflation, steadying interest rates, and weakened consumer sentiment starting from the second half of the financial year. The weaker sentiment was on account of a large non-banking financial company announcing its inability to address liabilities. This affected credit expansion, financial markets and consumer sentiment, which resulted in a slower

GDP growth of 6.6% in the third quarter 5.8% in the fourth quarter of the year under review compared with 8.2% and 7.1% GDP growth in the first two quarters of FY2018-19.

In 2018, the country attracted more foreign inflows than China - ~USD 38 billion, higher than China's USD 32 billion. India witnessed a 23-notch jump to a record 77th position in the World

Bank's latest report on the ease of doing business that captured the performance of 190 countries. The commencement of the US-China trade war opened a new opportunity for India, particularly in the agro sector. Inflation (including food and energy prices) was pegged at 2.6% on an annual basis, one of the lowest in years and well below the Reserve Bank of India's medium-term target of 4%. The rupee rebounded after touching a low of ₹74.45 to a dollar to close the financial year at ₹69.44. During the fiscal under review, the Indian Government

continued to invest deeper in digitisation, renewable energy capacity generation and infrastructure building.

Outlook

Assuming no major global and domestic political shocks, India's markets are expected to perform better due to projected earnings revival in 2019. Revenue growth for corporate India is strengthening across the previous quarters. The growth of India's manufacturing sector is expected to accelerate to 8.3% this fiscal, up from

5.7% in 2017-18. This acceleration reflects a rebound from transitory shocks (the currency exchange initiative and implementation of the GST), with strengthening investment and robust private consumption. The fiscal deficit for 2019-20 is pegged at 3.4% with a target of 3% by the 2020-21. India is expected to grow at 7.4% in FY2019-20, benefiting from the ongoing structural reforms. Global regulatory technology industry

Banks and financial institutions operate in a highly-regulated environment and continuously face new guidelines to prevent money laundering and restrict terrorist funding. Banks spend hefty amount due to fines and penalties for non-compliance with regulations. The annual spending of the financial institutions for non-compliance issues is >USD 100 billion. The fintech industry, over the last couple of years, has realised the need for reg tech software. Reg tech vendors offer software to simplify the implementation of regulations for financial institutions.

The global reg tech market was worth ~USD 2,321.5 million in 2018 and is expected to reach USD 7,207.6 million

by 2023, growing at a CAGR of 25.4%. The solutions provided by the reg tech industry include compliance management, reporting, identity management, and risk management. The compliance management solution segment is expected to grow at the highest CAGR during the aforementioned period.

The adoption of reg tech is the highest in Europe owing to strict and mandatory rules and directives for financial transactions and data protection. The cloud deployment mode offers enterprises to opt for SaaS on a subscription basis as per usage rather than incurring costs on hardware and infrastructure. Asia Pacific holds a huge

potential for vendors and is expected to grow at the highest CAGR between 2018 and 2023 due to the presence of financial hubs like Hong Kong, Singapore and India.

Large enterprises held a significant market share in 2018. However, SMEs are expected to grow at a higher CAGR. The cloud migration of SMEs is comparatively easier than large enterprises, which is driving the growth of SaaS adoption. Organisations are deploying reg tech solutions because of the increasing focus to expedite regulatory operations and manually reduce the complexities for risk assessment.

Indian regulatory technology market

Over the last few years, the Government of India announced several policies for the creation of a digital India. Between the ambitious GST initiative and the commitment to improving the ease of doing business, the time is ripe for a surge in the reg tech sector. India ranks among the top-five countries in terms of digitalisation maturity as per Accenture's Platform Readiness Index, and is expected to be among the top countries with the opportunity to grow and scale digital platforms by 2020-21. As India becomes increasingly digitalised, the reg tech industry is expected to strengthen.

In India, financial regulatory authorities, across jurisdictions, are setting up task forces to leverage tech developments in order to achieve their mandates better. In 2017, the SEBI set up a committee to evaluate opportunities enabled by technology and also deal with relevant risk. The SEBI also proposed a sandbox environment to provide a safe space for companies to test innovative technologies.

The RBI has taken significant steps to encourage innovation in the industry and propagate use technology to increase the effectiveness of regulation.

The RBI started its ADF journey to ensure submission of correct and consistent data generated by banks to the RBI in 2010. The landscape has been constantly evolving with improvements made in reporting formats, rationalisation of reports and consistency checks. In recent times, the RBI has made a concerted effort to revamp its capabilities through initiatives such as the Centralised Information and Management System and Public Credit Registry programmes.

Both the SEBI and RBI have already shown a keen interest in developing

a sandbox environment in which innovative technologies can be tested by the industry in a controlled space. With enhanced enablement of technology, Indian regulators will also be able to experiment with some globally implemented use cases. Their ability to process various structured and unstructured datasets will help them counter some of the challenges they face due to inadequacies in official information sources. Moreover, advanced sup tech applications will help to enhance qualitative and quantitative insights provided to the regulators.

Outlook

The analytics, data science and big data industry in India was estimated to be worth ₹17,615 crore in FY18, growing at a healthy CAGR of 33.5%. Of the annual inflow to analytics industry, ~11% can be attributed to analytics, predictive modelling and data science. A sizeable 22% can be attributed to big data. Analytics, data science and big data industry in India is expected to grow sevenfold in the next seven years to become a ₹1,30,000-crore industry in India by 2025.

BFSI continues to be the largest sector being served by analytics in India with 38% or USD 1 billion in revenues coming from it. Marketing and advertising comes second at 24%, followed by e-commerce sector generating 15% of analytics revenues in India

Collect business

50%

of the total revenues in FY2018-19

Overview

The Collect business division is focused on collecting data for regulators across the world. The company's flagship product iFile framework helps one create a complete XBRL-based reporting platform using a modular and flexible component design architecture. The framework can be easily deployed by any reporting authority for its jurisdiction or even internally within enterprises. Using the web and client components, enterprises and other reporting entities can create a reporting platform that connects with the regulator they need to file with.

IRIS iFILE supports both XBRL and non-XBRL data. It can be integrated with other information systems at the stage of creation of XBRL data or when the XBRL data is being disseminated or analysed. IRIS iFILE is already being used across various regulatory environments including capital markets, banking and e-governance.

Edge

- A robust team comprising technical and financial professionals that combines taxonomy consulting and product platform skill sets
- Mature product hardened over the years and meeting a range of customer requirements
- IRIS iFile can easily be integrated with existing data management systems within the client's IT infrastructure

Highlights, FY2018-19

- Bagged prestigious customers including Qatar Stock Exchange, Ministry of Industry and Commerce, Qatar and Boursa Kuwait.
- Made significant product enhancements to the iFile suite, especially related to the data modelling and taxonomy creation modules

Outlook

The Collect business was affected in FY18-19 owing to unanticipated delay in receipt of order from customers. However, the pipeline continues to be robust and we expect a material uptick in the current financial year.

Create

41%

of total revenues in FY2018-19 from the create business.

Overview

This business is built around the need of enterprises to collaborate and create regulatory filings in a structured data format. It is a cloud-based platform streamlining the process of complex compliance reporting. It helps a range of entities such as public listed companies, mutual funds and foreign private issuers meet with the multiple regulators' XBRL/Inline XBRL mandates. The key offering

in this segment is IRIS CARBON®, a subscription-based and cloud-hosted application.

IRIS CARBON® is offered in the US, the UK, Ireland, Italy, India and the South African markets to meet the regulator mandated needs for XBRL or Inline XBRLbased financial report filing.

Over and above IRIS CARBON®, in the 'Create' segment, IRIS has two

more offerings. While IRIS iDeal is built for automated regulatory data filings targeted at the BFSI segment, IRIS GST is our India specific platform designed to meet the needs of the India's GST compliance regime.

IRIS CARBON®

IRIS CARBON® is a versatile platform with the ability to work with multiple taxonomies and diverse business rules across country specific mandates ranging from US SEC to UK's HMRC and South Africa's CIPC. IRIS has been continually enhancing the product with features such as machine learning algorithms to improve report creation efficiency through an automated tag selection process.

The increased adoption of the Inline XBRL format is an important development as it would encourage users to opt for collaborative and single document platforms such as IRIS CARBON®. The US SEC is mandating a progressive shift to Inline XBRL while the European Securities and Markets Authority (ESMA) has also announced a first-time mandate for listed company reporting using Inline XBRL.

During FY2018-19, IRIS CARBON® was deployed to meet the annual financial report filing needs of South African companies in the Inline XBRL format. This market has good potential and IRIS is a key solution provider. However, the adoption pace has been rather slow.

IRIS GST

With the launch of the GST mandate in India, IRIS, one of the initial GSPS selected by the GSTN, introduced a host of products under the IRIS GST umbrella to help companies fulfill the complex GST return filing compliance requirements. We have an end to end offering that combines a full-fledged ASP solution along with a GSP conduit to interact with the GSTN.

With a combination of technical and finance professionals, IRIS has been quick to understand changes in the GST regime and one of the first in the industry to update its products. Instead of a monolithic structure, the IRIS GST is built on blocks. This has helped the company provide updates faster than many domestic peers.

Additionally, IRIS GST offers an e-way bill solution as well as a full suite of analytics, ensuring across-the-table GST compliance and business insights. The company also launched IRIS Peridot, a mobile app available on android and iOS platforms. Any GST number captured by the app provides information about the registered tax payment and timely payment of GST and returns.

This app, which enjoyed more than 50,000 downloads, has helped IRIS make its presence felt in the Indian GST space.

Over and above the compliance platform, IRIS launched IRIS Credixio

data APIs-driven offering, helping lenders evaluate and monitor borrowers using the wealth of GST data.

Outlook

The outlook for IRIS CARBON® is encouraging on account of two factors. One, more and more countries are adopting XBRL as a format for financial report filing, be it for the capital markets, tax authority or business registry. Secondly, countries which adopted XBRL are looking at upgrading to Inline XBRL or even considering withdrawing the free template-based authoring tool.

IRIS GST is relatively at a nascent stage with the government yet to stipulate the monthly invoice reconciliation process for claiming input tax credits, which necessitates technology-driven automation. However, the modified GST compliance regime, which is expected to be rolled out, should provide a demand impetus. IRIS GST was initially marketed in the Mumbai and Pune regions. The company is launching the product in other markets and anticipates attractive growth in FY2019-20.

There are challenges coming from well-funded start-ups offering significant price discounts for GST compliance suites. In addition, the GSTN also offers a free software. IRIS is, however, confident of differentiating itself through value-added products

Financial review

Our subsidiaries function as marketing and customer support entities with the result that consolidated financials differ only marginally from standalone financials.

During FY2018-19, the company reported revenues worth ₹40.96 crore compared to ₹35.59 crore during FY2017-18, a growth of 15.10 %. The growth was on account of superior performance of IRIS CARBON® and IRIS GST, which grew by 125.89% and 10.18%, respectively over the previous year.

- Revenues from the Collect segment dropped 6.10% from ₹21.91 crore during FY2017-18 to ₹20.58 crore during FY2018-19

- Revenues from the Create segment grew 55.80% from ₹10.81 crore during FY2017-18 to ₹16.84 crore during FY2018-19

- Revenues from the Consume segment reported 11.11% growth from ₹2.23 crore during FY 2017-18 to ₹2.48 crore during FY2018-19

nearly 66% of revenues during FY2018-19 were derived from overseas territories and 34% from India, compared to 67% and 33% respectively, reported in the previous year.

The company reported an EBITDA of ₹0.33 crore in 2018-19 compared to ₹0.90 crore during FY2017-18

There was no significant change in Return on Net worth during the year. The company continues to be loss making with a negative return on net worth.

Relatively higher increase in losses at the consolidated level has led to drop in interest coverage ratio.

Risk management

The risk management protocol at the company entails the following:

- Identify, assess and manage existing and emerging risks in a planned and cohesive manner.
- Increase the effectiveness of the internal and external reporting structures
- Develop a risk management culture that encourages employees to identify various risks and find to protect the organisation.

Industry risk

A slowdown in demand from the user industry could adversely impact business growth.

Mitigation: Growing regulatory compliances have led global and Indian companies to adopt financial reporting in the XBRL format. Countries like the US and South Africa have already mandated filing in XBRL. Besides, GST implementation has opened up a plethora of opportunities for IRIS.

Attrition risk

Inability to retain clients could impact sustainable business growth.

Mitigation: IRIS has been able to retain its customer base with its innovative solutions and first rate customer service.

Innovation risk

Inability to innovate may make us irrelevant in the global market in our business space.

Mitigation: IRIS has been working with various regulatory mandates across the world and developing its products accordingly. Majority of the company's capital investments have been channelised towards improving or enhancing its suite of products. Besides, the company's ability to provide life-cycle-spanning solutions makes it one of the preferred vendors for marquee global brands.

Security risk

An inability to keep data secure could impact the company's reputation.

Mitigation: IRIS has been consistently taking efforts ensure safety and security of the data of its users and expose its systems to third-party audits periodically to reassure customers on data security.

Acceptance risk

Inability to develop relevant products and in a timely manner could impact the company's offtake.

Mitigation: IRIS works with regulatory bodies across the globe and stay abreast of updates to develop better products.

Regulatory risk

Frequent changes in regulatory compliances can render the company's products obsolete.

Mitigation: IRIS continually scans data standards and reporting mandates to keep abreast of trends and appropriately updates its expertise and software components. Instead of a monolithic structure, IRIS products are built in blocks, which lends itself more easily towards upgrades. The cloud-hosted nature of the products also help sit to update its products promptly.

Internal control system and their adequacy

The company's internal audit system has been continuously monitored and updated to ensure that assets are safeguarded, established regulations are complied with and pending issues

are addressed promptly. The audit committee reviews reports presented by the internal auditors on a routine basis. The committee makes note of the audit observations and takes corrective

actions, if necessary. It maintains constant dialogue with statutory and internal auditors to ensure that internal control systems are operating effectively.

3. STATE OF COMPANY AFFAIRS

The reporting year was a year of consolidation for your company in many respects. Firstly, your company has been able to deepen its relationship with existing regulatory customers while building a promising pipeline of new business. Secondly, your company has entrenched its presence in the regulatory platform business with key wins. Finally, the company's enterprise solutions has successfully entered the South African market and is poised to build a valuable franchise in that country.

Your company continues to execute its strategy to operate in the Regtech market and offer a suite of IP driven software products and solutions built around structured data. Your company continues to enjoy a leading position globally in reporting solutions built on the XBRL information standard.

The market for your company's structured data based offerings has continued to witness strong interest across segments such as regulators and enterprises. Countries across the world have adopted XBRL as the reporting standard for external reporting. Regulators across capital markets, banking, business registries and taxation are at the forefront of XBRL adoption. Adoption paves the way for your company to enter these countries either through a two step process of solutions for regulators (the 'Collect' segment) followed by software and to a range of filing entities (the "Create" segment). Your company's regulatory filing platform, iFile already has more than twenty regulator clients across fifteen countries. More countries and regulators are poised to be added to the list. Multiple types of regulators and geographies have given your company an unparalleled depth of knowledge in the XBRL domain, which is leveraged in driving the software product strategy as well.

In the "Create" segment, your company's collaborative, cloud (SaaS) based XBRL filing authoring solution "IRIS Carbon®" now caters to clients in the USA, UK, Italy, South Africa and Indian markets. "IRIS Carbon®" has inbuilt versatility that enables your company to meet the needs of different regulatory mandates, build global scale while mitigating customer concentration risks. Your company has also leveraged our well recognised strengths in compliance reporting platforms and information business to offer to the lender community curated and insight solutions based on

the GST and MCA filings within a framework. This market is emerging and offers interesting opportunities.

4. TRANSFER TO RESERVE

The company does not propose to transfer any amount to reserves.

5. DIVIDEND AND TRANSFER TO IEPF

The Board of Directors does not recommend any dividend on equity shares.

The company was not required to transfer any unpaid/unclaimed amount of dividend to IEPF during the financial year ended 31st March, 2019.

6. CHANGE IN THE NATURE OF BUSINESS

There are no changes in the nature of business during the financial ended 31st March, 2019.

7. MATERIAL CHANGES AND COMMITMENT, IF ANY AFFECTING FINANCIAL POSITION OF THE COMPANY OCCURRED BETWEEN END OF THE FINANCIAL YEAR TO WHICH THIS FINANCIAL STATEMENTS RELATE AND THE DATE OF THE REPORT

There were no material changes and commitment affecting financial position of the company between end of the financial year to which this financial statements relate and the date of the report.

8. SIGNIFICANT AND MATERIAL ORDERS PASSED BY THE REGULATORS OR COURTS OR TRIBUNAL

During the year there no significant material orders passed by the Regulators/Courts/Tribunals which would impact the going concern status of the company and its future operations.

9. RISK AND CONCERN

The company operates in a global market characterised by intense competition. Although the company has a strong position in the area of external financial reporting and especially in XBRL based mandates, there is the need to have adequate marketing spend and product differentiation to establish presence and build market share. In addition, many regulators initially prefer to offer free tools to enterprises to create the regulatory filings which hamper market growth. Migration from free tools to paid platforms is a journey that takes time as well in select markets. Mature markets face pricing pressure and relatively high switching costs. Your company has to put in substantial efforts to build mindshare in the demanding markets of Europe and the US. The GST mandate in India is yet to fully play out as the GST council has deferred invoice level reconciliation which is a big driver

for adoption of third-party compliance platforms. Moreover, the segment had witnessed intense competition in this year of GST introduction and while there is cautious optimism that fringe players will drop out, there is uncertainty related to the time frame.

10. RISK MANAGEMENT

Your company is aware of the risks associated with the business. The company is in the process of institutionalizing a mechanism for identifying, minimizing and mitigating risks which will be periodically reviewed.

Some of the risks identified and which will have the attention of the management are:

1. Securing critical resources including capital and human resources;
2. Ensuring cost competitiveness;
3. Building product differentiation and the appropriate value proposition
4. Maintaining and enhancing customer service standards.
5. Identifying and introducing innovative marketing and branding activities especially in the digital media

11. DEPOSITS

The company had not accepted any deposits during the financial year ended 31st March, 2019 nor there were any unpaid/unclaimed deposits at the financial year ended on 31st March, 2019. Further as the company has never accepted deposits there have been no defaults in repayments thereof nor any non-compliance thereto.

12. SUBSIDIARY, ASSOCIATE AND JOINT VENTURE COMPANIES

The company has the following subsidiaries:

1. IRIS BUSINESS SERVICES (ASIA) PTE. LTD.
2. IRIS BUSINESS SERVICES, LLC

Independent Auditor's Report

To the Members of
IRIS BUSINESS SERVICES LIMITED

REPORT ON THE AUDIT OF STANDALONE FINANCIAL STATEMENTS

OPINION

We have audited the standalone financial statements of **IRIS BUSINESS SERVICES LIMITED ("the Company")**, which comprise the Balance Sheet as at March 31, 2019, the statement of Profit and Loss and Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and its loss and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters ("KAM") are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the KAM to be communicated in our report.

Sr. No.	KAM and the basis for considering it so.	How the KAM is addressed in the audit
1	Impairment of Intangibles : As per the Accounting standard 28, the Company is required to annually test the carrying amount of assets for impairment. The total assets of the Company are Rupees 65,47,64,270/- and the carrying value of Intangible assets is Rupees 22,73,20,578/- which is material amount. The management's assessment process is complex and highly judgmental and is based on assumptions, specifically about the number of potential customers for the products of the Company, the cost that the Company is required to spent to upkeep the product, the geography that the product will cater, etc., which are affected by expected future market or economic conditions worldwide.	Our audit approach was a combination of test of internal controls and substantive procedures which included the following : <ul style="list-style-type: none">• Evaluated the design of internal controls relating to recording the cost of capitalization of intangibles, selecting an asset and testing the same for impairment and its application.• Selected a sample of intangible asset which are capitalized till date and inspection of evidences and the process followed for its capitalization and impairment testing and of performance of these controls, tested the operating effectiveness of the internal controls relating to the same.• Followed the principal laid down in the Accounting Standard 28 for impairment testing as a substantive process.• Obtained understanding about the future projections prepared by the management and its basis. Comparing the pricing used in the projections with the similar / near similar products available in the similar market, reviewed communication by the Company with the potential customers and understanding about their interest in the product so as to test the projections made for the immediate period.

OTHER INFORMATION

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related

to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the

audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), as amended, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

As required by section 143 (3) of the Act, we report that:

- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
- On the basis of written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;
- With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B";
- With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The Company does not have any pending litigations which would impact its financial position.
 - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

- 5) The Company has not accepted any deposits from the public and hence the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the Companies (Acceptance of Deposit) Rules, 2015 with regard to the deposits accepted from the public are not applicable.
- 6) As informed to us, the maintenance of Cost Records has not been specified by the Central Government under sub-section (1) of Section 148 of the Act, in respect of the activities carried on by the Company.
- 7) (a) According to information and explanations given to us and on the basis of our examination of the books of accounts, and records, the Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Employees State Insurance, Income-Tax, Goods and Service Tax and any other statutory dues with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of the above were in arrears as at March 31, 2019 for a period of more than six months from the date on when they become payable.
- b) According to the information and explanation given to us, there are no dues of income tax, sales tax, service tax, Goods and Service tax, duty of customs, duty of excise, value added tax outstanding on account of any dispute.
- 8) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of dues to banks. The Company has not taken any loan either from financial institutions or from the government and has not issued any debentures.
- 9) Based upon the audit procedures performed and the information and explanations given by the management, the Company has not raised moneys by way of initial public offer or further public offer including debt instruments and term Loans during the year. Accordingly, the provisions of clause 3 (ix) of the Order are not applicable to the Company and hence not commented upon.
- 10) Based upon the audit procedures performed and the information and explanations given by the

management, we report that no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.

- 11) Based upon the audit procedures performed and the information and explanations given by the management, the managerial remuneration has been paid or provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act.
- 12) In our opinion, the Company is not a Nidhi Company. Therefore, the provisions of clause 4 (xii) of the Order are not applicable to the Company.
- 13) In our opinion, all transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 and the details have been disclosed in the Financial Statements as required by the applicable accounting standards.
- 14) Based upon the audit procedures performed and the information and explanations given by the management, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of clause 3 (xiv) of the Order are not applicable to the Company and hence not commented upon.

- 15) Based upon the audit procedures performed and the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, the provisions of clause 3 (xv) of the Order are not applicable to the Company and hence not commented upon.

- 16) In our opinion, the Company is not required to be registered under section 45 IA of the Reserve Bank of India Act, 1934 and accordingly, the provisions of clause 3 (xvi) of the Order are not applicable to the Company and hence not commented upon.

"Annexure B" to the Independent Auditor's Report

"Annexure B" to the Independent Auditor's Report of even date on the Standalone Financial Statements of IRIS BUSINESS SERVICES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of

IRIS BUSINESS SERVICES LIMITED

We have audited the internal financial controls over financial reporting of IRIS Business Service Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls,

both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over

financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become

inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statement for the year ended 31 March, 2019

1 CORPORATE INFORMATION

IRIS Business Services Limited ("The Company") is a public limited company domiciled and headquartered in India and is listed on the Bombay Stock Exchange (BSE) SME Platform. The registered office of the Company is located at T-231, Tower 2, 3rd Floor, International Infotech Park, Vashi, Navi Mumbai – 400 703. The Company has subsidiaries in United States, Singapore and Italy. Incorporated in 2000, IRIS is a global provider of software products for compliance, data and analytics.

The Company cater to Regulators including Central Banks, Business Registries, Capital Market Regulators and Stock Exchanges. We also provide solutions to the regulated, including Corporates, Banks, and Mutual Funds.

The financial statements of the Company for the year were approved and adopted by Board of Directors of the Company in its meeting held on May 25, 2019.

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation of Financial Statements

These financial statements are prepared and presented in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('Act').

The accounts have been prepared on historical cost basis using the accrual basis of accounting. The preparation of financial statements as per this policy requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as on the date of the financial statements and the reported income and expenses during the reporting period. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets / inputs for processing and their realisation in cash and cash equivalents, the Company has ascertained its normal operating cycle as 12 months for the purpose of current / non current classification of assets and liabilities.

2.2 Revenue Recognition

Revenue is recognised when no significant uncertainty exists as to either the measurement or ultimate realization of the same.

Revenue from Operations

- i. Revenue from contracts for development or customization of software is measured using the proportionate completion method and are recognised, provided at the time of performance it is not unreasonable to expect ultimate collection.
- ii. Revenue from sale of software/ software licenses which do not involve any customization are recognised upon delivery of the software to the clients and subscription income is recognised as revenue are recognised over the period of the subscription.
- iii. Revenue from advertisement, data conversion services is recognised after the performance of the services and it is not unreasonable to expect ultimate collection.
- iv. Revenues from maintenance and content contracts are recognised on a straight line basis over the period of the contract.

Notes to the Standalone Financial Statement for the year ended 31 March, 2019

- v. Royalty income is recognised as and when right to receive royalty is established.
- vi. When the uncertainty, relating to the collectability arises subsequent to the rendering of the service, a separate provision is made to reflect the uncertainty and the amount of revenue originally recorded is not adjusted.
- vii. Unbilled revenue included in 'Other current assets', represents amounts in respect of services performed in accordance with contract terms, not yet billed to customers at the year end. Income billed in advance included in 'Other current liabilities' represents amounts received/billed in excess of the value of work performed in accordance with the terms of the contracts with customers.

Other Income

- i. Interest on Bank deposits is recognised on accrual basis.
- ii. Rental income is recorded on accrual basis.
- iii. Any other income is recognised on accrual basis, when no significant uncertainty as to measurability or collectability exists.

2.3 Property, Plant and Equipment

Tangible Assets are stated at the cost of acquisition less accumulated depreciation. Cost includes incidental expenses incurred during the acquisition/ installation, and excludes taxes and duties for which credit has been claimed.

Intangible assets are recorded at the consideration paid for acquisition of such asset and are carried at cost less accumulated amortisation and impairment.

Capitalisation of Expenses incurred for development of software:

Costs incurred in the development of proprietary software products have been classified and grouped under the heads "Software Developed In-House" & "Intangible Assets under Development" under Property, plant and equipment as per the recognition criteria laid down under AS 26 . Expenditure on research is recognised as an expense when it is incurred. Development costs of products are also charged to the Statement of Profit and Loss unless all the criteria for capitalisation as set out in AS 26 - 'Intangible Assets' have been met by the Company.

2.4 Depreciation & Amortisation

Tangible assets are depreciated on straight line basis over the useful life as specified in Schedule II of Companies Act, 2013.

Individual assets whose cost does not exceed ₹ 5,000/- are depreciated fully in the year of purchase.

Leasehold Property is being amortised over the remaining leasehold period on straight-line basis.

Software products both proprietary and purchased are amortised over a period of 5 to 6 years on straight line basis, the amortization commences once the said product is available for use.

The useful lives used by the Company on various assets are as below:

Assets type	Useful life (in Years)
Building	60
Laptop & desktops	3
Server & networks	6
Furniture	10
Office equipment	5
Software	5

Notes to the Standalone Financial Statement for the year ended 31 March, 2019

2.5 Impairments

At each Balance Sheet date, the Company assesses whether there is any indication that an asset may be impaired. If any such indication exists, management estimates the recoverable amount. Recoverable amount is higher of an asset's net selling price and value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognised in the Statement of Profit and Loss to the extent carrying amount exceeds recoverable amount. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or many have decreased.

2.6 Investments

Long term investments are stated at cost, and provision for diminution is made when in the management's opinion there is a decline, other than temporary, in the carrying value of such investments. Short term investments are valued at lower of cost and net realizable value.

2.7 Provisions and Contingent Liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Provisions are reviewed at each Balance Sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed. Contingent assets are not recognised in the financial statements.

2.8 Miscellaneous Expenditure including share issue expenses

Preliminary and other miscellaneous expenses and share issue expenses are written off as and when incurred in accordance with the requirements of accounting standard 26.

2.9 Foreign Currency Transactions

The functional currency of the Company is the Indian Rupee (₹).

Transactions denominated in foreign currency are recorded using the RBI exchange rates prevailing on the date of transaction, with the loss or gain arising on final settlement being adjusted in the Profit & Loss A/c.

The monetary items denominated in the foreign currency as at the end of the year are translated using the RBI exchange rates prevailing on the date of the Balance Sheet and the corresponding loss or gain on translation adjusted in the Profit & Loss A/c.

2.10 Prepaid Expenses

Expenses which are incurred in one year and which spill over to the subsequent years are recognised as prepaid on proportionate basis.

2.11 Employee Benefits

Short-term employee benefits including salaries, wages, bonus and other benefits are recognised as expenses at the actual value as per contractual terms & charged to the profit and Loss Account for the year in which the related service is rendered.

The employees are eligible for leave as per leave policy of the Company. The un-utilised leave can be carried forward and utilised during the course of employment. No encashment is allowed of unutilised leave. The obligation for the leave encashment is recognised based on an independent actuarial valuation at the Balance

Notes to the Standalone Financial Statement for the year ended 31 March, 2019

Sheet date. The expense is recognised in the statement of profit and loss at the present value of the amount payable determined based on actuarial valuation using "Projected Unit Credit Method".

The Company has provided for gratuity payable to employees on the basis of actuarial valuation carried out by an independent actuary as per Projected Unit Credit Method carried out at the closed of the year. The Company makes annual contributions in respect of those employees who have completed five years in service, to the Group Gratuity Cash Accumulation Scheme of the LIC, which is a funded defined benefit plan.

2.12 Taxation

Tax expense for the year comprises of current tax and deferred tax. Current tax is measured by the amount of tax expected to be paid to the taxation authorities on the taxable profits after considering tax allowances and exemptions and using applicable tax rates and laws. Deferred tax is recognised on timing differences between the accounting income and the taxable income for the year and quantified using the tax rates and tax laws enacted or substantively enacted as on the Balance Sheet date. Deferred tax assets are recognised and carried forward to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets in respect of unabsorbed depreciation or carry forward losses are recognised only to the extent there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets is reviewed at each Balance Sheet date for any write down or reversal, as considered appropriate.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amount and there is an intention to settle the asset and liability on a net basis.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing the current tax and where the deferred tax assets and liabilities relate to taxes on income levied by the same governing taxation laws.

2.13 Leases

Where the Company as a lessor leases assets under finance leases, such amounts are recognised as receivables at an amount equal to the net investment in the lease and the finance income is recognised based on a constant rate of return on the outstanding net investment.

Assets leased by the Company in its capacity as lessee where substantially all the risks and rewards of ownership vest in the Company are classified as finance leases. Such leases are capitalised at the inception of the lease at the lower of the fair value and the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis.

Notes to the Standalone Financial Statement for the year ended 31 March, 2019

2.14 Service Tax and GST

Service tax is accounted in accordance with the Guidance note on Accounting of Service Tax issued by ICAI. Accordingly input credit to the extent not utilized for payment of service tax accounted as asset as it would be available for adjustment against Service Tax payable in the future.

With effect from 01st July 2017, Goods and Service Tax Act was made effective replacing Value Added Tax and Service Tax provisions. The Goods and Services Tax, namely CGST, SGST and IGST, hereinafter referred to as GST, was levied on the services rendered by the Company on the similar lines as was Service tax was levied. The unutilised Cenvat credit as on 30th June 2017 was transferred under the GST provisions. The unutilised input credit under the GST provisions as on the Balance Sheet date was disclosed as other current asset in the Balance Sheet.

2.15 Segment Reporting

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

2.16 Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

2.17 Provisions and Contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes.

Notes to the Standalone Financial Statement for the year ended 31 March, 2019

2.18 Accounting for Employee Stock Options

Stock options granted to employees of IRIS Business Services Limited and its subsidiaries under the stock option schemes approved by the shareholders of the Company on September 13, 2017 are accounted as per the treatment prescribed by the Guidance Note on Employee Share-based Payments issued by the Institute of Chartered Accounts of India as required by the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014. The fair value of the option being stock option granted for purchase could be exchanged between knowledgeable, willing parties in an arm's length transaction is recognised as deferred employee compensation with a credit to share options outstanding account. The Expense on deferred employee compensation is charged to Statement of Profit and Loss on straight line basis over the vesting period of the option. The options that lapse are reversed by a credit to Expense on Employee Stock Option Scheme, equal to the amortised portion of value of lapsed portion and a debit to share options outstanding account equal to the un-amortised portion.

2.19 Cash and Bank Balance

Cash and cash equivalents include cash in hand, demand deposits with banks and other short term highly liquid investments with original maturities of three months or less.

Rights, preferences and restrictions attached to equity shares

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time subject to payment of dividend to preference shareholders. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

Note 30 EMPLOYEE STOCK OPTION SCHEME

The Company provides share-based payment schemes to its employees. The relevant details of the scheme are as follows:

On September 11, 2017, the Board of Directors approved the "IRIS Business Services Limited – Employee Stock Option Scheme 2017" ("Scheme") in order to reward the employees for their past association and performance as well as to motivate them to contribute to the growth and profitability of the Company with an intent to attract and retain talent in the organization. The aforesaid Scheme was duly approved by shareholders in its Extra-Ordinary General Meeting held on September 13, 2017. The Nomination and Remuneration Committee of the Board has granted options under the said Scheme to certain category of employees as per criteria laid down by Nomination and Remuneration committee of the Board.

The shareholders of the Company approved the ratification of the Scheme and extension of the benefits of the Scheme to the employees of Subsidiary Company(ies) by Special Resolutions through Postal Ballot on March 29, 2019. Key terms of the scheme:

Date of Shareholder's Approval	September 13, 2017
Total Number of Options approved	7,00,000
Vesting Schedule	Option shall vest not earlier than 1 (One) year and not later than maximum Vesting Period of 4 (Four) years from the date of grant
Maximum term of Options granted	9 Years

Method and Assumptions used to estimate the fair value of options granted during the year ended: The fair value has been calculated using the Black Scholes Option Pricing model.

(Amount in ₹)

Particulars	As at 31 March, 2019	As at 31 March, 2018
Variables		
Risk Free Interest rate	6.61% to 7.00%	6.61% to 7.00%
Expected Life (in Years)	3.5 Years to 6.5 Years	3.5 Years to 6.5 Years
Expected Volatility	11.73%	11.73%
Dividend Yield	0.00%	0.00%
Stock Price (in ₹)	32	32
Exercise Price (in ₹)	32	32

Stock Price

The stock price of the Company is the listing market price of the Company's equity share on Stock Exchanges on the date of grant.

Under the ESOP Schemes one option entitles one equity share of the Company.

Expected Volatility

Expected volatility is a measure of the amount by which share price is expected to fluctuate during a period. The measure of volatility used in option pricing models is the annualised standard deviation of the continuously compounded rates of return on the share over a period of time.

Since shares of the Company got listed only on the Grant Date and there is no history of share price trading, expected volatility had been derived from historic values NSE VIX index as on the Grant date.

Risk-free Rate of interest

The current yield rates of Central Government securities (with similar residual maturity as expected life of stock option) are being considered. This is based on the zero-coupon yield curve for Government Securities obtained from NSE.

Exercise Price

Exercise price is the price which the option holder has to pay at the time of exercising the option. Exercise prices are considered as per the information provided by the Company. As per the rules of ESOP plans, exercise price is the listing price of the shares of the Company on 11th October 2017 which is ₹ 32.00.

Time to Maturity / Expected Life of options

The expected life of an option will be in-between the minimum period before which the options cannot be exercised and the period after which the options cannot be exercised.

The fair value of each award has been determined based on different expected lives of the options that vest each year, as if the award were several separate awards, each with a different vesting date. A weighted average of all the vests has been calculated to arrive at the value of the options granted.

Notes to the Standalone Financial Statement for the year ended 31 March, 2019

Note 30 EMPLOYEE STOCK OPTION SCHEME (contd...)

The time to maturity has been estimated as illustrated by the following example. In case of the grant made on 11 October 2017, the earliest date of vesting is one year from the date of grant that is 11 October 2018. Hence, the minimum life of the option is 1 year. The exercise period is Five years from the date of vest as per the ESOP scheme; hence the maximum life of this vest is 6 years. The expected life is the average of minimum and maximum life, i.e. 3.5 years $[(1 + 6)/2]$. The time to maturity for the remaining vests has been calculated in a similar manner.

Dividend Yield

Expected dividend yield has been taken as "NIL" since the Company has not declared any dividend in the past.

Note 31 SEGMENT REPORTING

The Company has identified business segments (Nature of revenue stream) as its primary segment and geographic segments as its secondary segment. Business segments comprise of Collect Segment (Regulatory platform), Create Segment (Enterprise Platform) and Consume Segment (Data Consumption Platform and Content Services).

Revenue and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly identifiable to a specific segment have been allocated on the basis of associated manpower efforts. All other expenses which are not attributable or allocable to segments have been disclosed as un-allocable expenses. Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as un-allocable. Fixed assets that are used interchangeably among segments are not allocated to primary and secondary segments.

Geographical revenue is allocated based on the location of the customer. Geographic segments of the Company are Middle Eastern Countries, America (including Canada and South American countries), Europe, India and Others:

CONSOLIDATED FINANCIAL STATEMENTS

Independent Auditor's Report

To the Members of
IRIS BUSINESS SERVICES LIMITED

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

OPINION

We have audited the accompanying consolidated financial statements of IRIS BUSINESS SERVICES LIMITED (hereinafter referred to as the 'Holding Company') and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31, 2019, and the consolidated statement of Profit and Loss, and the consolidated Cash Flow Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Company as at March 31, 2019, of consolidated loss and its consolidated cash flows for the year then ended.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters ("KAM") are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the KAM to be communicated in our report.

Sr. No.	KAM and the basis for considering it so.	How the KAM is addressed in the audit
1	Impairment of Intangibles : As per the Accounting standard 28, the Group is required to annually test the carrying amount of assets for impairment. The total assets of the Company are Rupees 63,35,81,437/- and the carrying value of Intangible assets is Rupees 22,73,20,578/- which is material amount. The management's assessment process is complex and highly judgmental and is based on assumptions, specifically about the number of potential customers for the products of the Group, the cost that the Group is required to spent to upkeep the product, the geography that the product will cater, etc., which are affected by expected future market or economic conditions worldwide.	Our audit approach was a combination of test of internal controls and substantive procedures which included the following : <ul style="list-style-type: none"> • Evaluated the design of internal controls relating to recording the cost of capitalization of intangibles, selecting an asset and testing the same for impairment and its application. • Selected a sample of intangible asset which are capitalized till date and inspection of evidences and the process followed for its capitalization and impairment testing and of performance of these controls, tested the operating effectiveness of the internal controls relating to the same. • Followed the principal laid down in the Accounting Standard 28 for impairment testing as a substantive process. • Obtained understanding about the future projections prepared by the management and its basis. Comparing the pricing used in the projections with the similar / near similar products available in the similar market, reviewed communication by the Group with the potential customers and understanding about their interest in the product so as to test the projections made for the immediate period.

EMPHASIS OF MATTER

We draw attention of the members to the note 34 regarding financial position of Company's Subsidiary IRIS Business Services (Asia) Pte. Ltd. The net assets of the Company are negative as on the Balance Sheet date. The management has stated that it will continue to provide its support as and when necessary. Our opinion is not qualified in respect of these matters.

OTHER INFORMATION

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone and consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its Associates and Jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in

accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise

professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and jointly controlled entities to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group, its associate and jointly controlled entities to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the

financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

- (a) We did not audit the financial statement of one foreign subsidiary company, whose financial statement reflect total assets of Rupees 73,59,721/- as at March 31, 2019 and total revenues of Rupees 1,57,11,417/- and net profit of Rupees 14,24,336/- for the year ended on that date, as considered in the consolidated financial statements. The said financial statements have been

audited by other auditor whose report have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the said subsidiary and our report in terms of sub-sections (3) and (11) of Section 143 of the Act in so far as it relates to the aforesaid subsidiary, is based solely on the reports of the other auditor.

- (b) We did not audit the financial statements of two foreign subsidiary companies, whose financial statements reflect total assets of Rupees 33,24,042/- as at March 31, 2019 and total revenues of Rupees 1,02,20,879/-, net loss of Rupees 82,31,995/- for the year ended on that date as considered in the consolidated financial statements. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by section 143 (3) of the Act, we report, to the extent applicable, that:

- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
- In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
- The Consolidated Balance Sheet, the Consolidated

Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;

- In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under section 133 of the Act;
- On the basis of written representations received from the directors of the holding company as on March 31, 2019 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding company is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;
- With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in Annexure;
- With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - There were no pending litigations which would impact the consolidated financial position of the Group.
 - The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company.

"Annexure A" to the Independent Auditor's Report

"Annexure A" to the Independent Auditor's Report of even date on the Consolidated Financial Statements of IRIS BUSINESS SERVICES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of

IRIS BUSINESS SERVICES LIMITED

We have audited the internal financial controls over financial reporting of the Parent as of March 31, 2019 in conjunction with our audit of the Consolidated Financial Statements of the Parent for the year ended on that date. Our reporting on the Internal Financial Controls in the case of consolidated financial statements, is applicable only to the Parent, which has been audited by us.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Board of Directors of the Parent is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Parent considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Parent's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Parent's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10)

of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Parent's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over

financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting

to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, and to the best of our information and according to the explanations given to us, the Parent has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Parent considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation of Financial Statements

These financial statements are prepared and presented in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('Act').

The accounts have been prepared on historical cost basis using the accrual basis of accounting. The preparation of financial statements as per this policy requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as on the date of the financial statements and the reported income and expenses during the reporting period. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets / inputs for processing and their realisation in cash and cash equivalents, the Company has ascertained its normal operating cycle as 12 months for the purpose of current / non current classification of assets and liabilities.

2.2 Revenue Recognition

Revenue is recognised when no significant uncertainty exists as to either the measurement or ultimate realization of the same.

Revenue from Operations

- Revenue from contracts for development or customization of software is measured using the proportionate completion method and are recognised, provided at the time of performance it is not unreasonable to expect ultimate collection.
- Revenue from sale of software/ software licenses which do not involve any customization are recognised

Notes to the Consolidated Financial Statement for the year ended 31 March, 2019

upon delivery of the software to the clients and subscription income is recognised as revenue are recognised over the period of the subscription.

- iii. Revenue from advertisement, data conversion services is recognised after the performance of the services and it is not unreasonable to expect ultimate collection.
- iv. Revenues from maintenance and content contracts are recognised on a straight line basis over the period of the contract.
- v. Royalty income is recognised as and when right to receive royalty is established.
- vi. When the uncertainty, relating to the collectability arises subsequent to the rendering of the service, a separate provision is made to reflect the uncertainty and the amount of revenue originally recorded is not adjusted.
- vii. Unbilled revenue included in 'Other current assets', represents amounts in respect of services performed in accordance with contract terms, not yet billed to customers at the year end. Income billed in advance included in 'Other current liabilities' represents amounts received/billed in excess of the value of work performed in accordance with the terms of the contracts with customers.

Other Income

- i. Interest on Bank deposits is recognised on accrual basis.
- ii. Rental income is recorded on accrual basis.
- iii. Any other income is recognised on accrual basis, when no significant uncertainty as to measurability or collectability exists.

2.3 Property, Plant and Equipment

Tangible Assets are stated at the cost of acquisition less accumulated depreciation. Cost includes incidental expenses incurred during the acquisition/ installation, and excludes taxes and duties for which credit has been claimed.

Intangible assets are recorded at the consideration paid for acquisition of such asset and are carried at cost less accumulated amortisation and impairment.

Capitalisation of Expenses incurred for development of software:

Costs incurred in the development of proprietary software products have been classified and grouped under the heads "Software Developed In-House" & "Intangible Assets under Development" under Property, plant and equipment as per the recognition criteria laid down under AS 26. Expenditure on research is recognised as an expense when it is incurred. Development costs of products are also charged to the Statement of Profit and Loss unless all the criteria for capitalisation as set out in AS 26 - 'Intangible Assets' have been met by the Company.

2.4 Depreciation & Amortization

Tangible fixed assets are depreciated on straight line basis over the useful life as specified in Schedule II of Companies Act, 2013.

Individual assets whose cost does not exceed ₹ 5,000/- are depreciated fully in the year of purchase.

Leasehold Property is being amortised over the remaining leasehold period on straight-line basis.

Software products both proprietary and purchased are amortised over a period of 5 to 6 years on straight line basis, the amortization commences once the said product is available for use.

Notes to the Consolidated Financial Statement for the year ended 31 March, 2019

The useful lives used by the Company on various assets are as:

Assets type	Useful life (in Years)
Building	60
Laptop & desktops	3
Server & networks	6
Furniture	10
Office equipment	5
Software	5

The accounting policy followed by IRIS Business Services (Asia) Pte. Ltd. regarding depreciation rates in respect following fixed assets is not in line with the policy followed by the holding company.

Property, plant and equipment	Rate followed by Subsidiary	Rate followed by the holding Company
Furniture and Fixtures	33 % p.a.	10% p.a.
Office Equipment	33 % p.a.	20% p.a.

2.5 Impairments

At each Balance Sheet date, the Company assesses whether there is any indication that an asset may be impaired. If any such indication exists, management estimates the recoverable amount. Recoverable amount is higher of an asset's net selling price and value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognised in the Statement of Profit and Loss to the extent carrying amount exceeds recoverable amount. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or many have decreased.

2.6 Investments

Long term investments are stated at cost, and provision for diminution is made when in the management's opinion there is a decline, other than temporary, in the carrying value of such investments. Short term investments are valued at lower of cost and net realizable value.

2.7 Provisions and Contingent Liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Provisions are reviewed at each Balance Sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed. Contingent assets are not recognised in the financial statements.

2.8 Miscellaneous Expenditure including share issue expenses

Preliminary and other miscellaneous expenses and share issue expenses are written off as and when incurred in accordance with the requirements of accounting standard 26.

Notes to the Consolidated Financial Statement for the year ended 31 March, 2019

2.9 Foreign Currency Transactions

The functional currency of the Company is the Indian Rupee (₹).

Transactions denominated in foreign currency are recorded using the RBI exchange rates prevailing on the date of transaction, with the loss or gain arising on final settlement being adjusted in the Profit & Loss A/c.

The monetary items denominated in the foreign currency as at the end of the year are translated using the RBI exchange rates prevailing on the date of the Balance Sheet and the corresponding loss or gain on translation adjusted in the Profit & Loss A/c.

2.10 Prepaid Expenses

Expenses which are incurred in one year and which spill over to the subsequent years are recognised as prepaid on proportionate basis.

2.11 Employee Benefits

Short-term employee benefits including salaries, wages, bonus and other benefits are recognised as expenses at the actual value as per contractual terms & charged to the profit and Loss Account for the year in which the related service is rendered.

The employees are eligible for leave as per leave policy of the Company. The un-utilised leave can be carried forward and utilised during the course of employment. No encashment is allowed of unutilised leave. The obligation for the leave encashment is recognised based on an independent actuarial valuation at the Balance Sheet date. The expense is recognised in the statement of profit and loss at the present value of the amount payable determined based on actuarial valuation using "projected unit credit method".

The Company has provided for gratuity payable to employees on the basis of actuarial valuation carried out by an independent actuary as per Projected Unit Credit Method carried out at the closed of the year. The Company makes annual contributions in respect of those employees who have completed five years in service, to the Group Gratuity Cash Accumulation Scheme of the LIC, which is a funded defined benefit plan.

2.12 Taxation

Tax expense for the year comprises of current tax and deferred tax. Current tax is measured by the amount of tax expected to be paid to the taxation authorities on the taxable profits after considering tax allowances and exemptions and using applicable tax rates and laws. Deferred tax is recognised on timing differences between the accounting income and the taxable income for the year and quantified using the tax rates and tax laws enacted or substantively enacted as on the Balance Sheet date. Deferred tax assets are recognised and carried forward to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets in respect of unabsorbed depreciation or carry forward losses are recognised only to the extent there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets is reviewed at each Balance Sheet date for any write down or reversal, as considered appropriate.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Notes to the Consolidated Financial Statement for the year ended 31 March, 2019

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amount and there is an intention to settle the asset and liability on a net basis.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing the current tax and where the deferred tax assets and liabilities relate to taxes on income levied by the same governing taxation laws.

2.13 Leases

Where the Company as a lessor leases assets under finance leases, such amounts are recognised as receivables at an amount equal to the net investment in the lease and the finance income is recognised based on a constant rate of return on the outstanding net investment.

Assets leased by the Company in its capacity as lessee where substantially all the risks and rewards of ownership vest in the Company are classified as finance leases. Such leases are capitalised at the inception of the lease at the lower of the fair value and the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis.

2.14 Service Tax and GST

Service tax is accounted in accordance with the Guidance note on Accounting of Service Tax issued by ICAI. Accordingly input credit to the extent not utilized for payment of service tax accounted as asset as it would be available for adjustment against Service Tax payable in the future.

With effect from 01st July 2017, Goods and Service Tax Act was made effective replacing Value Added Tax and Service Tax provisions. The Goods and Services Tax, namely CGST, SGST and IGST, hereinafter referred to as GST, was levied on the services rendered by the Company on the similar lines as was Service tax was levied. The unutilised Cenvat credit as on 30th June 2017 was transferred under the GST provisions. The unutilised input credit under the GST provisions as on the Balance Sheet date was disclosed as other current asset in the Balance Sheet.

2.15 Segment Reporting

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

2.16 Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Notes to the Consolidated Financial Statement for the year ended 31 March, 2019

Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

2.17 Provisions and Contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes.

2.18 Accounting for Employee Stock Options

Stock options granted to employees of IRIS Business Services Limited and its subsidiaries under the stock option schemes approved by the shareholders of the Company on September 13, 2017 are accounted as per the treatment prescribed by the Guidance Note on Employee Share-based Payments issued by the Institute of Chartered Accounts of India as required by the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014. The fair value of the option being stock option granted for purchase could be exchanged between knowledgeable, willing parties in an arm's length transaction is recognised as deferred employee compensation with a credit to share options outstanding account. The Expense on deferred employee compensation is charged to Statement of Profit and Loss on straight line basis over the vesting period of the option. The options that lapse are reversed by a credit to Expense on Employee Stock Option Scheme, equal to the amortised portion of value of lapsed portion and a debit to share options outstanding account equal to the un-amortised portion.

2.19 Cash and Bank Balance

Cash and cash equivalents include cash in hand, demand deposits with banks and other short term highly liquid investments with original maturities of three months or less.

Rights, preferences and restrictions attached to equity shares

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time subject to payment of dividend to preference shareholders. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

Failure to pay any amount called up on shares may lead to forfeiture of the shares.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

Note 29 EMPLOYEE STOCK OPTION SCHEME

The Company provides share-based payment schemes to its employees. The relevant details of the scheme are as follows:

On September 11, 2017, the Board of Directors approved the "IRIS Business Services Limited – Employee Stock Option Scheme 2017" ("Scheme") in order to reward the employees for their past association and performance as well as to motivate them to contribute to the growth and profitability of the Company with an intent to attract and retain talent in the organization. The aforesaid Scheme was duly approved by shareholders in its Extra-Ordinary General Meeting held on September 13, 2017. The Nomination and Remuneration Committee of the Board has granted options under the said Scheme to certain category of employees as per criteria laid down by Nomination and Remuneration committee of the Board.

The shareholders of the Company approved the ratification of the Scheme and extension of the benefits of the Scheme to the employees of Subsidiary Company(ies) by Special Resolutions through Postal Ballot on March 29, 2019. Key terms of the scheme:

Date of Shareholder's Approval	September 13, 2017
Total Number of Options approved	7,00,000
Vesting Schedule	Option shall vest not earlier than 1 (One) year and not later than maximum Vesting Period of 4 (Four) years from the date of grant
Maximum term of Options granted	9 Years
Method of Settlement	Shares
Source of shares	Primary-Fresh equity allotment by the Company

Notes to the Consolidated Financial Statement for the year ended 31 March, 2019

Method and Assumptions used to estimate the fair value of options granted during the year ended: The fair value has been calculated using the Black Scholes Option Pricing model.

(Amount in ₹)

Particulars	As at 31 March, 2019	As at 31 March, 2018
Variables		
Risk Free Interest rate	6.61% to 7.00%	6.61% to 7.00%
Expected Life (in Years)	3.5 Years to 6.5 Years	3.5 Years to 6.5 Years
Expected Volatility	11.73%	11.73%
Dividend Yield	0.00%	0.00%
Stock Price (in ₹)	32	32
Exercise Price (in ₹)	32	32

Stock Price

The stock price of the Company is the listing market price of the Company's equity share on Stock Exchanges on the date of grant.

Under the ESOP Schemes one option entitles one equity share of the Company.

Expected Volatility

Expected volatility is a measure of the amount by which share price is expected to fluctuate during a period. The measure of volatility used in option pricing models is the annualised standard deviation of the continuously compounded rates of return on the share over a period of time.

Since shares of the Company got listed only on the Grant Date and there is no history of share price trading, expected volatility had been derived from historic values NSE ViX index as on the Grant date.

Risk-free Rate of interest

The current yield rates of Central Government securities (with similar residual maturity as expected life of stock option) are being considered. This is based on the zero-coupon yield curve for Government Securities obtained from NSE.

Exercise Price

Exercise price is the price which the option holder has to pay at the time of exercising the option. Exercise prices are considered as per the information provided by the Company. As per the rules of ESOP plans, exercise price is the listing price of the shares of the Company on 11th October 2017 which is ₹ 32.00.

Time to Maturity / Expected Life of options

The expected life of an option will be in-between the minimum period before which the options cannot be exercised and the period after which the options cannot be exercised.

The fair value of each award has been determined based on different expected lives of the options that vest each year, as if the award were several separate awards, each with a different vesting date. A weighted average of all the vests has been calculated to arrive at the value of the options granted.

Notes to the Consolidated Financial Statement for the year ended 31 March, 2019

Note 29 EMPLOYEE STOCK OPTION SCHEME (contd...)

The time to maturity has been estimated as illustrated by the following example. In case of the grant made on 11 October 2017, the earliest date of vesting is one year from the date of grant that is 11 October 2018. Hence, the minimum life of the option is 1 year. The exercise period is Five years from the date of vest as per the ESOP scheme; hence the maximum life of this vest is 6 years. The expected life is the average of minimum and maximum life, i.e. 3.5 years $[(1 + 6)/2]$. The time to maturity for the remaining vests has been calculated in a similar manner.

Dividend Yield

Expected dividend yield has been taken as "NIL" since the Company has not declared any dividend in the past.

Note 30 SEGMENT REPORTING

The Company has identified business segments (Nature of revenue stream) as its primary segment and geographic segments as its secondary segment. Business segments comprise of Collect Segment (Regulatory platform), Create Segment (Enterprise Platform) and Consume Segment (Data Consumption Platform and Content Services).

Revenue and expenses directly attributable to segments are reported under each reportable segment. Expenses which are not directly identifiable to a specific segment have been allocated on the basis of associated manpower efforts. All other expenses which are not attributable or allocable to segments have been disclosed as un-allocable expenses. Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as un-allocable. Fixed assets that are used interchangeably among segments are not allocated to primary and secondary segments.

Geographical revenue is allocated based on the location of the customer. Geographic segments of the Company are Middle Eastern Countries, America (including Canada and South American countries), Europe, India and Others:
