S Swaminathan, Chief Executive & Founder and K Balachandran, Founder & Chief Financial Officer will address investors in the conference call.

About IRIS

IRIS Business Services Limited is a global Regtech with compliance software products for regulators and enterprises. The company is headquartered in Mumbai, India with international offices in United States, Singapore and Italy. Today, the company has clients in some 40 countries around the world.

In the 3 years since its listing on the SME Board of the BSE, the management has effected a turnaround in the company's fortunes by pivoting first from services to products and then to delivering SAAS solutions to its enterprise clients worldwide.

Even as the company consolidated its position as a global leader in XBRL, IRIS has ventured beyond XBRL too, with, for instance its GST software in India which has been well received.

IRIS is one of a kind company, being the first and only Regtech SAAS company listed on an Indian stock exchange.
